This longer tour allows you to see the best of both medieval and modern parts of Tallinn. You can enjoy many marvels through different eras and leisurely walk through stories worth of several centuries. **Classical walk in Old Town** includes all the best parts of the both Lower and Upper Town – **Town Hall** and **Town Hall Square**, the **oldest continuously functioning pharmacy** in the World, **Dome Church**, **Alexander Nevskij's Cathedral** and many other notable medieval buildings. Old Town with its winding streets, tile roofs, **fascinating facts and legends** will capture your heart quickly.

We will enjoy a relaxing coffee break in an old town cafe, located in a historic building before heading out of the city center.

The following drive will introduce you the most leisurely part of the whole town – **Kadriorg**. This district contains many beautiful sights – wooden suburb that takes your breath in its loveliness, **majestic baroque park** with ascending **rose gardens** and **swan pond** and beautiful **Kadriorg Palace** that once belonged to the Russian Empress Catharine I. Behind the baroque park ensemble lies **Estonian Presidential Palace** and great masterpiece of the modern architecture – **KUMU Art Museum**.

The latter was especially built for the Olympic Regatta of the Moscow Olympics in 1980. Nearby also lies the sandy **Pirita beach**, which is the most popular city beach in Tallinn. Also you can take a look at the **romantic ruins of the St. Bridget's Convent** by the riverside.
